STEEL ASSOCIATION

Metal Bulletin Events' and *SMR's 9th International Stainless & Special Steel Summit* is the event where the market talks. The market leaders in global stainless steel come together to debate the new paradigms for the industry in the post-recession world.

No other stainless steel conference offers such networking opportunities nor such cutting edge content and debate. With international industry leaders setting out their agenda for 2011, any serious player in stainless steel cannot afford to miss out.

Benefits of attending Learn...

...how the stainless steel industry is adjusting its production and business strategies as we emerge from the crisis

Participate...

...in top-level interactive debates on the most pressing questions facing the industry today - to help you make better informed business decisions taking you safely through the next twelve months

Network...

...with key decision-makers and market-shakers in the stainless steel industry

Innovation is the key

Rome will be the largest gathering of commercial stainless and special steel executives in 2010. Thus it will be the place 'where the market talks'. Leading industry experts will address topics that are at the core of our industry:

- Market Development: Where can stainless steel win new applications from alternative materials?
- What can other markets learn from the Italian success story?
- How can the European welded tube and pipe producers remain competitive?
- Does it pay off to have a global production base for stainless steel producers?
- How much own distribution shall a stainless steel mill have?
- Distribution: What is the optimal size and warehouse system in Europe and North America?
- Consumers: How do consumers in major industry segments (food service, automotive, process equipment, building and construction) see the road to recovery?
- Where do they think that their suppliers can improve, where is innovation really needed?
- Raw Materials: LME – friend or foe of our industry?
- When will the stainless steel scrap tightness ease?
- Nickel: Are all new projects delayed and will PAL ever work? How much more NPI has to be expected in China?
- Is Nickel substitution running out of steam?
- Technology & Productivity: What technical innovations keep stainless steel competitive?
- What cost-cutting measures create value?
- Financing and Risk Management: How can this industry overcome the volatility problem and regain its attractiveness for investors?
- Long Products: Is protectionism the right answer to re-establish profitability in Europe and the USA?
- Why is consolidation lagging behind in long products?
- Seamless Tube: When will the key markets - power generation, oil and gas, process equipment - recover?
- Special Steels: Does it pay off to be a global player?
- When will we reach pre-crisis levels in tool steels?
- Did the crisis accelerate, or slow, the offshoring in the tool-making industry?
- What position can Chinese producers get in Europe and North America?
- How to deal with the enormous overcapacity in forged products?
- What realistic opportunities are there for low nickel grades (PH, duplex, lean duplex and martensitic) to substitute 300 series in long products?

Sponsorship and Exhibition Opportunities

Reach out to international decision-makers at the **9th International Stainless and Special Steel Summit**. Taking a sponsorship option or exhibition stand is the most cost-effective and targeted way of reaching the International Stainless and Special Steel community.

Sponsorship Opportunities

Showcase your company at the **9th International Stainless and Special Steel Summit**. Sponsoring an element of the event ensures your company features at the forefront of the conference. Join us and illustrate your company's expertise and competitive edge to the key decision-makers in the International Stainless Steel industry.

Raise your company profile before, during and after the event using our unique sponsorship options. Sponsorship offers longevity and packages are tailored so that your company can gain exposure from the time of inception to the event itself. By taking a sponsorship option at the event, you will have your logo displayed on the main conference stage and create an opportunity for potential clients to contact you by showcasing your company details in the delegate documentation and on the conference website with a hyperlink to your corporate homepage.

We can customise a variety of options to suit your budget, objectives and aspirations, examples include:

Welcome Reception

Network and welcome potential clients with your branding prominent

Host a Delegate Lunch

Entertain a large number of existing and potential clients

Coffee Break Sponsor

Get your message across with high visibility branding

Delegate Bag Sponsor

Your company logo on the move for maximum effect

Brochure Distribution

Ensure your message is communicated to all the delegates

Exhibition Opportunities

The International Stainless and Special Steel exhibition area acts as the heart of the networking activity and provides the perfect opportunity to showcase your company, services and achievements whilst establishing business contacts and ensuring your clients know where to find you.

Exhibiting at the conference is an investment into your company's future success; it will provide you with the ultimate tool to achieve your goals by delivering a targeted audience.

As an exhibitor you will have the opportunity to:

- Network and do business with industry decision makers
- Target new customers, build and reinforce relationships
- Create greater company exposure
- Showcase your products, services and achievements
- Launch a new company, service or product
- Increase your sales
- Attend the conference and improve your industry knowledge
- Relax and enjoy communicating with colleagues old and new at the evening receptions
